

The Necessity for God's Revelation

Daniel 2:22,28

General Revelation Only

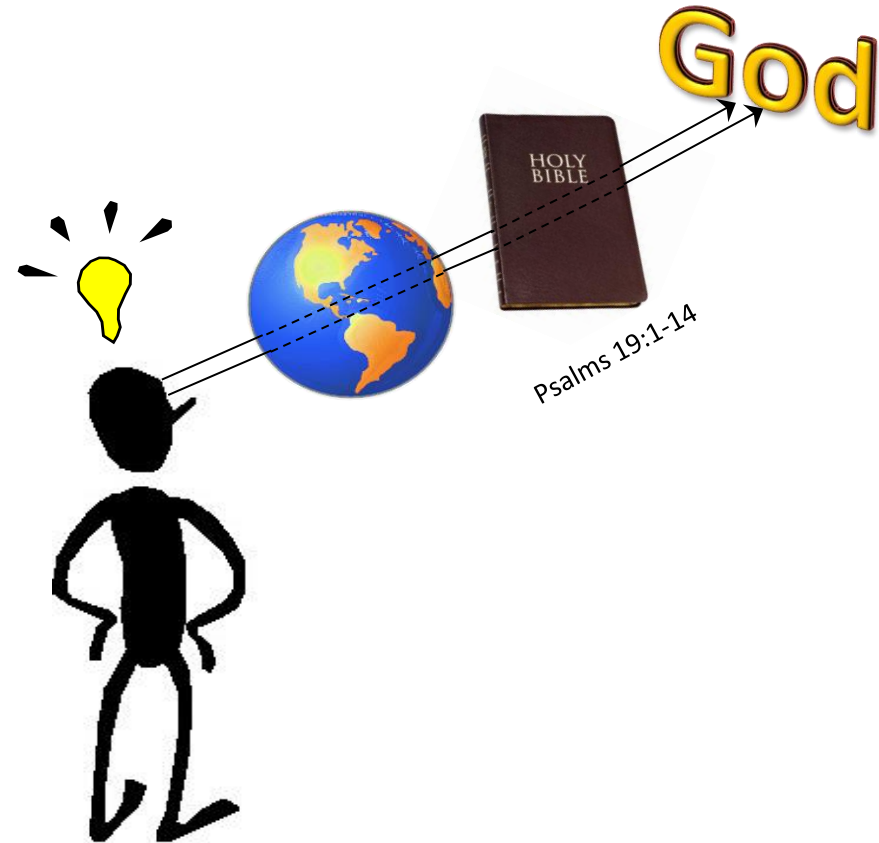

General (or Natural) Revelation = Observable Universe

General revelation by itself allows man to know there is a God and that he is good (Acts 14:15-17; 17:24-29; Rom 1:19-21; Heb 3:4). However, *general revelation* does not provide the fullness of the knowledge of God that man needs.

General and Special Revelation

Special (or Supernatural) Revelation = God's spoken words and law

A sufficient knowledge of God for man involves a combination of both *general* and *special revelation*. *Special revelation* provides man with a knowledge of sin and redemption.
